

WELCOME TO THE MITEL COMMUNITY

Mitel has taken over Toshiba's products and support and has embraced them into the Mitel portfolio. If you have a Toshiba system in place, use the decision tree below to help guide you what direction you can take your Toshiba system.

PRODUCT INFORMATION

MIVOICE BUSINESS

teamats.com/mitel/mivoice-business.aspx

MiVoice Business is a business communication platform that delivers voice, messaging, mobility, presence, conferencing, collaboration and applications. It is designed to meet the needs of businesses from 5 to 65,000 users, whether they have a single site or multi-site networks that span the globe.

MIVOICE OFFICE 250

teamats.com/mitel/mivoice-office-250.aspx

Are your employees dispersed among offices, home offices and working from the road? The MiVoice Office 250 connects employees from every location, increasing productivity and lowering your communication costs. MiVoice Office 250 was designed and built specifically with small and medium sized businesses in mind by the communications experts at Mitel.

VIPEDGE

teamats.com/mitel/vip-edge.aspx

VIPedge's® cloud-based business voice over IP (VoIP) telephone solution is designed for organizations needing robust communication features without having to own and maintain an onsite telephone system. Whether you want to conserve capital or simply free your IT talent for other things than running the office phone system, hosted communications services can be very liberating—and surprisingly affordable.

IPEDGE

teamats.com/mitel/ip-edge.aspx

IPedge® was made for businesses that need sophisticated communications, but want the phone system to be as simple as possible to own, use and manage. One industry-standard server runs all call control, productivity applications and management functions for significant savings on equipment and maintenance. This includes call processing, messaging, unified communications, mobility, conferencing, collaboration and centralized administration.

CIX

teamats.com/mitel/strata-cix-advantage.aspx

The Strata CIX Family gives your small business, enterprise branch or retail locations powerful IP capabilities, allowing you to communicate when and where you need to. With the ability to support a mix of IP, digital and analog phones, Strata CIX is ideal for organizations that want to keep using the existing digital phones as long as possible and evolve to IP in phases.
